

## Weekly French Revision Plan

You should be spending at least 1 hour a week on French revision in the run up to exams and you should start your revision programme early. The tasks listed below will take more than 1 hour a week so choose the ones that help you the most. This is to be used alongside revision done in class and intervention sessions.

Regular revision is the key to success at GCSE – remember **'little, but often'** – 15 mins focussed **active** revision followed by a short break preferably in another room. Then return to revision and so on...

**Just reading** is **not effective** revision as most of us do not have photographic memories – make revision active:

- Use Memrise to help you remember tricky words or expression.
- Practice questions and mark them – ask yourself - Why did you drop marks? What do you still need to learn?
